FINANCIAL AND COMMERCIAL.

FRIDAY, April 20-6 P. M. The stock market has displayed an improving tendency to-day, and the cholera sensation seems to have died out, for the present at least. Fort Wayne experienced a sharp rise of five per cent, and the transactions in Eric re very large. Hudson River and Cleveland and Pittsburg at the same time showed great firmness, and railay shares generally were in the ascendant, as they reached. The miscellaneous shares were pegected, and a slight decline was the consequence All the conditions of the market are favorable to a

All the conditions of the market are favorable to a further advance of prices, and these are of a character which it would be difficult to overcome by merely speculative or other subordinate local influences.

At the early session of the open board Eric (sales 4,700 shares) sold at 72%, New York Central (sales 500 shares) 92%, Reading (s. 3) 103, Michigan Southern 80%, Illinois Central 114, Cleveland and Pittsburg 80, Rock Island 119, Cleveland and Toledo 101%; Fort Wayne 93, Cumberland 44, Spruce Hill Coal 6%, Mariposa preferred 21% a 20%.

Michigan Southern closed % nigher than at the half-past two board yesterday, Rock Island 1%, Fort Wayne %, Alton and Terre Haute %, Island 136, Fort Wayne 36, Alton and Terre Baste 36, Western Union Telegraph 334. New York Central was 36 lower, Eric 36, Mariposa preferred 36, Quicksilver 36. Government securities were strong. Coupon sixes of 1881 advanced 36, coupon five-twenties of the 1862 issue issue %, ten-forties %, seven-thirty notes of the

first series ½, second series ½. At the one o'clock sessions the market was firmer, and Erie advanced to 73½. The attention of stockholders is being directed to an apparent discrepancy in the periodi-cal returns of the earnings of this road. Those for the months of February and March, 1865, were at the time respectively stated by the company to be \$885,039 and \$1,240,628, and these are now brought forward in the comparative statement of the carnings for the same months in the present year in the following strangely altered shape:—Earnings for February, 1865, \$1,011,735; for March, \$1,331,124. The speculative director of this road is generally undertood to be interested in a further decline of Erie, and some are unkind enough to insinuate that the exaggeran of last year's carnings is due to a desire on his part to make the present receipts appear smaller by compari-son. In any case the matter calls for explanation from the nted to an effort which was made at Albany to pass attributed to an enort wants made a country the a bill compelling all the New York railroads to carry the coal transported by the Delaware and Hudson Canal at the lowest rate charged to any other company, and as the Eric Road long ago contracted with the Pennsylvania Coal Company to carry its tonnage at a rate which would now be the reverse of profitable, the bill, if it became a law, would press with undue severity upon the Erie npany. We understand, however, that there is no probability of its passage, and that it was introduced into the Legislature more for speculative purposes than other-

At the half-past two board Fort Wayne, which had previously experienced a sharp rise, was active (sales 3,000), and closed 8 per cent higher than at the first regular board. Michigan Southern was firm and closed % higher. New York Central was 1/2 lower, Eric 1/4, Cleveland and Pittsburg 3, Mariposa preferred 3, Western Union Telegraph 1%. The money market is extremely easy at 4 a 5 per cent, and a large surplus of capital seeking employ ment. Money was, in fact, never more a drug than it is at present, and there is no immediate prospect of any material change in the condition of monetary affairs at this centre. This necessarily acts as an incentive to speculation for a rise on the Stock Exchange and leaves the course of prices under the control of the bulls, who certainly manifest no disposition to neglect a favorable opportunity to promote their own ends. The discount line is but poorly supplied with first class commercial paper, which at short date passes at six per cent and at long date at 6% a 7, while the second grade is taken with tolerable freedom at 7% a 9. The Western 15000 O & Misscert. 226 200 Menso an Lerk taken with tolerable freedom at 714 a 9. The Western bankers are still shipping currency to this city, exchange on which at Chicago and Cincinnati remains firm at pe buying and 1-10 premium selling.

The gold market opened firm at 126% and advanced to \$27%, after which it relapsed % and closed steady at 126%. There was an active demand for coin for mame diate delivery, and the general rate for loans ranged from 3 16 to % per cent per diem. The steamer Arizona from Aspinwall, brought \$820,860 in treasure.

Foreign exchange weakened under a light demand for bills from 107% to 107% for leading bankers bills on England at sixty days. Three days bills closed at 108% a %, commercial 106% a 107; Iranes at sixty days, 5.25, short eight 5.18% a 5.20. The firmness of American securities abroad exerts in influence upon the market. We now hear that another one, called the Morchants' Union, has been organized, with a capital of fifteen million dollars, and that its principal office is soon to be opened in this city. Elmore P. Ross, of Auburn, New York, is President, and Wm. H. Seward, Jr., Vice President. The company intends (if it does not follow the new organizations previously mentioned) to run over the principal business routes of the country.

Messrs. Satterthwaite & Co., in their American circular of April 6, say:—

Since our last we have had a firm and improving market in London for the United States five-twenty bonds, the closing quotation of 12 to 15 showing an advance of nearly one per cent. This would probably have been greater had not the Continental bourses been list, and furnished a large supply of bonds, which, however, have been taken up for English account, but most probably to find their way to Now York (where they are relatively about four per cent higher), either for sale there or as remittances against shipments of couton. There has been an active inquiry for Illinois shares, which close 61 to 16, a whilst Eric shares are neglected, being offered at 56. Atlantic and Great Western debentures are daily taken for investment at the low prices lately ruling. They close

The Car Drivers' Strike.

Travel was resumed on all the city railroads yesterday, as if nothing had happened, and citizens could race to any part of the city without fear or molestation. Nearly any part of the city without fear or molestation. Nearly all the lines have received the old drivers back again, and wherever it was practicable the strikers were furnished with employment. Or cours, a great number of the strikers will be unable to obtain situations, owing to the fact of there being so many new drivers in the field; but they must have patients, and watch their chances. Meanwhile it would him be a bad idea to distribute some of the funds denated to the strikers to such of the drivers as are unlacky enough to be out of a job. Payae

Fashion Course, L. I.—Trotting.

The second of the series of purses offered by the proprietor of the Fashion Course was trotted for yesterday afternoon. The purse was one hundred dollars, mile heats, best three in five, in harness, for horses that never trotted better than three minutes in public—that is, either in a match or for a purse en a race track—as time made at fairs is not regarded as legitimate on this track. For the race there were fifteen entries, six of which came to the post, vis:—ch. m. Rosamond, b. g. Sam, b. g. Pediar, b. m. Lady Sherwood, ch. m. Marceline, and br. z. Cassuus M. Clay, Jr. Rosamond was a great favorite before the start, selling at one hundred to eichtly against the field. After the first heat, which Sam won, distancing all but Rosamond, a great change was wrought among the financiers, and they were all anxious to get on Sam, some laying as much as one hundred to twenty on his winning. The mare best him very easily the three subsequent heats, and those who regarded Sam so highly for the mompetipade dearly for their admiration. Rosamond is a chesiquit mare, above fifteen hands, with three white feet and assrip on her face, slightly, but symmetrically put together, and has a nica, easy way of going. She was sired by Old Columbus, her dam by Hiram Drew, and is sven years old. Sam is a son of Rysdick's Hambletonian, out of the Ostrom mare; nearly sixtee n hands high, a bay, with white pasterns behind. He is nine years old. He has nover been trained, and was nover timed until the first heat yesterday, which he made in 2:39½. The trot was very exciting between the above, and iots of money one way and another changed hands on the result.

First Heat—It required considerable scoring before a start was effected, Cassius M. Clay, Jr., (who had no business there, his driver not having his weight in the sulky, getting away first, Sam second, Rosamond third, Pediar fourth, Lady Sherwood fifth and Marceline sixth. In this way they went around the turn, but as they approached the quarter pole S THE TUNF.

CAPPAIN HENRY A. STMORE, SIXTH NEW YORK This gallant officer, formerly an ela member of the National Guard, died, after a long and painting illness, on Sunday, 15th inst. Captain Wetmore beaund identified with the Sixth cavalry, as its Quartermaster, in July, 1861, and as such was engaged in several of the most important battles of the Rebellion. Subsequestly he was distalled to staff duty, under Generals Sedgwick, Richardson, Summer and Couch in the Peninsuls and other campaigns, and for gallant conduct and meritorious services was recommended for honorable promotion. He was a genial companion, courteous and kind, and an excellent disciplinarian. His remains were taken to Norwalk, Conn., for interment.

GEORGE H. ANDREWS, THE ACTOR.

George R. Andrews, the actor, well known in Now York and Boston, died in this city on the 7th inst. He began his professional career in Boston, and married there a lady of good family, who was a member of one of the leading church choirs. He left the stage for some years and became lessee of the old Chinese Building, which he managed for a greater part of its existence as a ball room. He finally returned to the profession, and within a few years has played frequently in this city. He was also an adapter and dramatist of some ability, and one of his chief works was a preparation for the stage of Monte Cristo, which was played at the old Broadway theatre, His chief success as an actor was in the part of Luke, in the domestic drama of Luke the Laborer, and his rendition of this part was at one time looked upon as among the best places of acting known to the American stage.

A LINEAL DESCENDANT OF WM. FERN. GEORGE H. ANDREWS, THE ACTOR.

A LINEAL DESCENDANT OF WM. PENN. On the 3d instant, Peter Penn Gaskill, Esq., the head of the lineal descendants of William Penn, the founder of Pennsylvania, died in Philadelphia, after a short illness, on his sixty-sixth birthday.

COLONEL WILLIAM A. THORNTON, U. S. A.
Colonel William A. Thornton, of the Ordnance Department of the army, died at Governor's Island, where he

had long been on duty, on Friday, the 6th instant, aged nearly sixty-four years.

He was born at Albany, entered West Point with Alexander Bache, Daniel S. Donnelson, Robert Anderson, Charles F. Smith and other distinguished men, in 1828, and graduated No. 12 in 1828. He was brevetted second lieutenant of the First artillery on his graduation, and rose through the various grades of the regular army until he became colonel in September, 1883. He served in the Black Hawk and Florida wars, and was with General Scott at Charleston, in the nullification troubles. He has been in the Ordmance corps ever since its organization, and almost always on constant duty as inspector of small arms. He had charge of several arsonals—at Watertown, Watervilet, and the ordnance department at Fort Columbus, New York harbor. He was recently brevetted brigadier general for his long and faithful services in the army. He nover received a furlough. When Jeff. Davis was Secretary of War, he sent Colonel Thornton to New Mexico, and here he lost has health. Returning over the plains he took cold, contracted a bronchilal affection, which brought on asthma, which harassed the remainder of his life, and was the indirect cause of his death. The funeral services will take place this afternoon, at four o'clock, from the Reformed Dutch church, corner of Lafayette place and Fourth street.

her up, and logged home. Sam crossed the score five lengths ahead of the mare, making the heat in 2:39 1/4—30 the others distanced.

Second Heal—One hundred to twenty wagered that Sam would win, and three to one that Resamond did not take this heat. Sam got the best of the send off, and went half way around the turn ahead; but the mare had too much foot for him, and passed him before reaching the quarter pole. Sam struck himself above the knee on the near fore leg and broke up, Resamond passing the quarter pole four lengths in front, in forty seconds, and, opening the gap down the backstretch, was five lengths ahead at the half-mile pole in 1:17½. Sam broke up twice on the Flushing end, and the mare won easily by five lengths, in 2:40 ½.

Third Heal—The mare was again the favorite, and one hundred to thirty was current all over the track. Sam took the lead, but the mare harrassed him so much around the turn that he broke up before reaching the quarter pole, and the mare passed that point half a length in iront of him, in thirty-nine and a half seconds, which she made into an lengths before Sam had recovered. She passed the half-mile pole in 1:10½, and came home an easy winner by three lengths, in 2:30½.

Fourth Heat—Betting was over, and the mare was booked to win. Sam got away with the lead, but he soon broke up, and the mare went in front, and was never approached afterwards. She went to the quarter pole five lengths shead, in thirty-nine shead of Sam; and came home on an easy gait, with Sam on a run by her side, making the heat in 2:38. The following is a summary:—

John Ward, prominent as a merchant of this city, died on the 31st of March, in the sixty-ninth year of his age. He was born in New York on the 26th of October, 1797. His father was Colonel Samuel Ward, of the Revotionary army, and his mother a daughter of Governor William Greene, of Rhode Island. In 1803 Colonel Ward removed with his family to Rhode Island, and in 1816 to Jamalca, on Long Island. His son, the deceased, was for a time a clerk in the office of Nevins & Townsend, brokers and bankers, and then in 1819 went into business on his single account. In 1824 he established the house of John Ward & Co., in which he continued till the 1st of March, 1965, when he retired from business. Mr. Ward was for many years President of the New York Stock Exchange. By a resolution of that body on his retiring from business the sum of \$500 was appropriated for a portrait of him by Wenzier, which has been lately completed. His funeral took place yesterday, at two o'clock, from St. Thomas' church, Most at Grinnell, Charles Russell, John Warren, Simeon Draper, Mr. Gifford, Denning Duer, Mr. Gourlie and Mr. Huggias being the palibearers.

CHESTER HARDING, THE ARTIST.

This well known artist died at Boston on Sunday evening. He was born in Conway, Mass., September 1, 1792, and his carlier youth was devoted to farming and charmaking. He served in the war of 1812, and then settled in Caledonia, N. Y., but adversity obliged him to leave his wife and infant child and seek a new home in the then pathless Wast. He reached Pittsburg, and then returned for his family, walking some two hundred miles, guided by the blazed trees.
